Camino Losada Alonso
Full-Stack Developer

Specialized in the **MERN stack** (MongoDB, Express, React, and Node.js), highly focused on **best practices**, **clean code**, and **Agile ecosystems**. I never miss the opportunity to explore and use technologies and tools that prioritize achieving an **optimal user experience** above all. And how did I get here? After completing my biology degree and specializing in fish and aquariums, I joined a **startup**, an environment in which I grew immensely both personally and professionally, **reaching goals far from my comfort zone**. All of this fueled my desire to take on what has been my **greatest and most satisfying challenge: programming**.

Experience

Full-Stack Web Development
ISDI Coders & Freelance - DeveloPez   05/2023 - Present

Development of web applications in **Agile** environments, adopting a **Sprint**-based approach to ensure **efficient** and **high-quality** delivery: participation in **planning**, **review**, and continuous improvement **retrospectives**.
Rigorous **version control** and **CI/CD** workflow management, overseeing all code through **workflows**, unit **testing**, and integration testing to ensure **clean** and **sustainable code**. Monitoring key aspects such as **accessibility**, **good practices**, **SEO**, and **performance**.

~ LINKLIST app   ~ TICKET-IN app   ~ BRETARO app

Aquarist
Aquarium Barcelona & Aquadec Aquariums   11/2021 - 04/2023

Experience in the care and **well-being** of aquatic life, attending to each and every **detail** that makes it possible. Projects **coordination**.

Aquaponics operations & Communication
Green in Blue (before Aquapioneers)   12/2018 - 11/2021

Acomplishments:
~Brand Identity and Community Building
Creation of the **brand identity** and product from scratch, enabling Green in Blue to establish a strong **presence on social media**. This effort has allowed the company to build a prominent aquaponics **community** in Catalonia and Spain, gaining remarkable international recognition within the **sustainability** ecosystem.
~Education and outreach about aquaponics
Creation of theoretical-practical educational materials and the delivery of **courses** and **workshops**.
~Biotechnology and Production
Strategic planning and involvement in the design of facilities, selection of cultivated products, and their ultimate destination .

Education

ANGULAR FUNDAMENTALS
The Refactor Proyect   01/2024 - 01/2024

Angular CLI · App architecture · Components, Services, Directives
Routing · Integrated APIsREST · Asynchronous tasks · RxJS observables

ADVANCED TYPESCRIPT
The Refactor Proyect   01/2024 - 01/2024

Advanced, Union & Conditional types · Type narrowing

FULL-STACK WEB DEVELOPMENT Program
ISDI CODERS   01/2023 - 05/2023

+1000 hours dedicated to practical programming in a **collaborative Agile environment**, subject to demanding **deadlines**.

Bachelor's Degree in Biology & MSc in Aquaculture
Universidad Santiago de Compostela   09/2012 - 07/2019

Skills

~FRONT-END & BACK-END
JavaScript · TypeScript · HTML5
CSS/SAAS · BEM · Styled-
Components · React · Redux
Vite · Axios · Netlify
APIRest · Angular

Express.js · Node.js · MongoDB
Mongoose · Postman · JWT · Joi
validation · Render

~TESTING
React Testing Library · Jest
Vitest · Supertest · TDD Mock-
Service-Worker · MongoDB-
Memory-Server

~BEST PRACTICES & CLEAN CODE
Git · GitHub & Actions · CI/CD
NPM · ESLint · Prettier
Debugging · SonarCloud · Figma
DevTools · Lighthouse · Trello
Agile

~LANGUAGES
Spanish · Galician
Native

English · French · Catalan
Working Proficiency

~EMOTIONAL SKILLS
Empathy · Meticulousness
Perseverance · Resilience
Responsibility · Autonomy

Recognition

Finalist in the **Jump2Digital Hackathon**, November 2023 (+100 participants)
